

Important Notice Regarding the Export of Teledyne RD Instruments Products

Dear Teledyne RDI Customer:

We are writing to inform our customers that the U.S. Department of Commerce has recently made modifications to the Commerce Control List (CCL) in which some of our products, listed below, are controlled under “Category 6 - Sensors and Lasers” section 6A001. These products are now controlled and will require a U.S. Department of Commerce Export License for shipment into certain countries.

However, Teledyne RDI is confirming the official classification of these products with the Department of Commerce and we will notify our customers of any changes in that regard.

The modification to the CCL affects product that has been exported as well as product to be exported. The following products have been determined to be controlled by the modified classification.

Teledyne RDI Products covered by the modification:

- BB ADCPs [firmware version 5.xx]
- WH Navigator [firmware version 9.xx]
- Explorer [firmware version 34.xx]
- WH Monitor/Sentinel/Long Ranger/Quartermaster [firmware version 16.xx]

For any sale, resale, export, or re-export of the Goods, both Seller and Buyer must comply with all applicable U.S. export regulations and U.S. export licensing requirements.

With regard to existing product in the field, Teledyne RDI now offers a firmware upgrade for WH Monitor/Sentinel/Long Ranger/Quartermaster product, which is not classified as 6A001. A field service bulletin will be forthcoming directly clarifying the resolution of this issue.

With regard to new product purchases, the standard firmware for WH Monitor/Sentinel/Long Ranger/Quartermaster product has been changed so they are not controlled under 6A001, unless they are specifically configured with the Bottom Track feature option.

WH Monitor/Sentinel/Long Ranger/Quartermaster products, purchased with the Bottom Track feature option, are controlled by 6A001 and will require a U.S. Department of Commerce Export License for shipment into certain countries. For any sale, resale, export, or re-export of the Goods, both Seller and Buyer must comply with all applicable U.S. export regulations and U.S. export licensing requirements.

We apologize for the inconvenience; however, we have no control over the U.S. Department of Commerce and this process.
